CE-15 Case Erector Automate Small-Box Case Erecting—Fast, Compact, Reliable.

The CE-15 Case Erector from Cleveland Equipment is designed specifically for small to mid-size boxes, making it an ideal solution for small and medium shipping operations. Capable of producing 12–15 boxes per minute, the CE-15 delivers up to 10 times the speed of manual case erecting, helping businesses keep up with peak demand while lowering labor costs.

This compact, stand-alone machine quickly transforms flat RSC and HSC cartons into sturdy, sealed cases, ensuring consistency and reliability with every box. The CE-15 is built for versatility while maintaining a small footprint at 71" x 71" x 55" and weighing just 772 pounds. Powered by a 110 V / 60 Hz single-phase connection and requiring only 5 cfm at 90 psi, the CE-15 is efficient and easy to integrate into existing packaging lines. It can also be configured with additional automation tools such as weighing, labeling, and scanning systems, making it a smart, scalable choice for modern fulfillment centers.

Capacity	12-15 boxes / min.
Construction	<i>*Designed for small boxes Table Height with feet 26.75</i>
Max Box Size	10 x 7.87 x 7.87
Min Box Size	7 x 3.14 x 3.94
Power Supply	110V 60Hz 1 Phase
Machine Weight	772 lbs
Air Supply	5fm@90psi
Dimensions	71" x 71" x 55"
