

CE-4500HVE

Vertical Band Sealer

- Durable stainless steel construction
- Easy to operate - minimal operator training
- Fast warm up time
- Ideal for medium duty and heavy duty applications
- Vertical configuration suitable for liquid products
- Unit feeds from Right to Left

- **Power Supply** 110V / 60Hz
- **Sealing Speed** 0-394 Inches/Minute
- **Temperature Range** 0-300° C
- **Conveyor Size** 55" x 10"
- **Conveyor Load** 11 lbs
- **Seal Width** 8mm
- **Minimum Bag Height** 3.9"
- **Maximum Bag Height** 27"
- **Print Specs** 20 Characters per Line
- **Dimensions** 57" x 27" x 58"

The CE-4500HVE is suitable for sealing all types of thermoplastic materials and bags. The vertical configuration is ideal for sealing stand up pouches and liquid-type products. This sealer can be used in a variety of fields such as the food, medical, and cosmetic industries. The CE-4500HVE is equipped with an adjustable sealing head and conveyor suitable providing a wide range of bag heights. The CE-4500HVE utilizes dry ink coding to print numbers or letters on the seal line.

- Solid state digital temperature controller that maintains the seal bars at a proper temperature for consistent seal quality
- Motorized rubber conveyor for speed control
- Knurled pressure wheels with variable pressure adjustment
- Sealing method - constant/direct heat accompanied with a pair each of cooling and heating blocks
- Fully adjustable conveyor (both height and depth of conveyor in relation to seal bars can be adjusted)
- Dry ink coding allows for printing at the seal line
- Spare parts includes: PC Board, PTFE belt, wheel belt, fuse, motor brush, heating element, silica gel ring, silicone pin, and type set
