

CE-NTC100 Capsule Counter

Features:

- Counting speed is adjustable.
- Containers positioned by pneumatic cylinder to ensure precise orientation.
- Dust accumulating device for smooth and efficient counting.
- Dual chutes for feeding continually.
- Vibration hopper makes smooth counting process.
- No adjustment is required as changing tablets.
- Adopted Japan Keyence high accuracy photoelectric sensor.
- Controlled by PLC system with LED touch screen.
- Memory parameters for fast changeover.
- Made of stainless steel and aluminum alloy, meets c GMP standard.

Specification for Bottle size:

- Diameter: 48mm~100mm / height: 116mm
- Capsule size: diameter >6mm, height > 3mm
- Tablet size: 2mm~30mm
- Accuracy: ± 1 tablet
- Counting speed: 600~1000 pcs/min
- Voltage : 110V
- Dimension: (L) 750mm (W) 550mm (H) 750mm
