

# SGP Large Capacity Piston Fillers

**Great for  
Liquids, Paste & Creams**

SGP Series large-capacity piston fillers are great for use with pastes and creams in both wet and dry environments. Because they require no electricity, these liquid fillers are well-suited for handling chemical or flammable materials without adding unnecessary safety risk. Powered by a foot pedal that actuates the fill cycle, these large-capacity manual fillers are safe, sensible and reliable. Choose from two models — the SGP-2500 and the SGP-5000 — to ensure that you get a system that meets your unique filling needs. All touch materials of this machine adopt 316 stainless steel. The SGP Large Capacity series includes a standard 22.5 gallon supply hopper.

- The entire machine adopts stainless steel, with nice appearance.
- Easily adjust the filling amount within the range as required with high accuracy.
- Simple disassembly to safely operate and easily clean
- Ideal for special industries such as food, daily chemistry, and pesticides.

<u>Model</u>	<u>Capacity (Min – Max)</u>
SGP-2500	8.5 - 84.5 oz / 250ml - 2500ml
SGP-5000	16.0 - 169.0 oz / 500ml - 5000ml

**866-888-6327**

# SGP Large Capacity Piston Fillers

Item		SGP-2500	SGP-5000
Filling range	Cream	250-2500ml	500-5000ml
	Liquid	—	—
Filling accuracy	Cream	±2%	±2%
	Liquid	±1%	±1%
Working air pressure		0.4-0.5MPa	0.4-0.5MPa
Throughput		0-30 bottle/minute	0-30 bottle/minute
Dimensions (length x width x height)		58"L x 15"W x 30"H *	58"L x 15"W x 32"H *

Note: For this series of machine, the maximum liquid amount to be filled should be less than 5% -10% of the cream amount.

\* Height / Width measurement is with standard included hopper.
