- ✓ **Power Supply:** 38W 110V 50/60Hz

Quickly package liquids with the reliable SGF Series Gear Fillers. The SGF Series gear filler is a single-head, microcomputer-controlled semi-automatic machine that lets you accurately fill liquids in dry environments. The microcomputer chips let you precisely control filling times and flows for expert accuracy and reliability. Each SGF Series gear filler operates with a foot pedal that begins the fill cycle or in automatic fill mode. We offer two SGF models. The SGF-2 has the capacity to fill 1 milliliter to 1.4-liter per minute. The SGF-1 has the capacity to fill 5 milliliters to 10-liter per minute and can fill a quantity of 35 1-Oz bottles of water in 60 seconds. The SGF series is very easy to clean.

<b>SGF-1</b>	(Min) 5ml - (Max)10 Liters	5/8"	3/8"	10L / Minute Per head
<b>SGF-2</b>	(Min) 1ml - (Max)1.4 Liters	7/16"	¼"	1.4L / Minute Per head
