

CE-CS1000

Tabletop Semi-Auto Screw Capper

CE-CS1000 is designed to tighten screw caps in general. Its compact design provides space efficiency and mobility.

Features:

- Rubber base pad to minimize cap damage.
- Adjustable torque duration.
- Height adjustable capping unit through hand wheel.
- Connectable to foot pedal.
- Compact and hand held design.
- SUS#304 stainless steel and aluminum alloy frame construction.

Specifications:

- Cap type: Screw caps
- Cap diameter: 22-110mm (0.86-4.33in)
- Capping speed approximately: 10-15 bottles / min
- Power supply: 110V, 60Hz
- Air pressure requirement: 40-60 PSI
- Air consumption: 50L/min
- Machine dimension: 15" (L) x 17.5" (W) x 29" (H)
