

Bottle-Matic Label Requirements:

- 1.) Must be on 3" core
- 2.) Must have approximately an 1/8" gap between labels
- 3.) Must be in copy position 3 or 4 – (if laying container on roller with top towards the left copy position 3 is needed)
- 4.) Maximum roll diameter 9"
*Upgrade to 15" roll diameter for \$35

Avoid clear cellophane backing paper (you can use it, but you must order your machine with the optional “Waste Rewinder” \$375.00 – this material wants to cling to the machine and get tangled in rollers.

NOTE – Narrow labels will work, but must be on backing paper of at least 1 1/2" wide.

Bottle-Matic II

Front/Back labels MUST be on same roll – (cannot use multiple rolls)
