

CAVN- Self Contained Retractable Nozzle Vacuum Sealer with Gas Purge

Seal Length (in)	20, 30
Seal width (in)	1/4
Vacuum Flow (CFM)	3
Max Vacuum Pressure (inHg)	27v
Amps @120 Volts A.C.	10, 15
Max Temperature**	500F
Unit Size (in)*	28L x 10W X 7H

The CAVN is defined by its plug-and-play retractable nozzle and gas purge vacuum sealing functionality. At the push of a foot pedal the CAVN flushes oxygen and moisture out of your packages with an inert gas (of your choice); its automated stainless-steel nozzle then subsequently retracts before its 1/4" wide-sealing element delivers a leak proof seal to any kind and thickness of flexible bags including clear, foil (Mylar), mil spec and ESD bags. Clean room compatible with precision components the CAVN leads the industry in seal speed while delivering clean wrinkle-free seals without any bag distortion.

The CAVN series is perfect for food, pharmaceutical, medical, electronics, clean room, and any general applications where moisture and oxygen are a threat to your product. The CAVN's 1/4" wide-sealing elements deliver a leak proof seal using any kind and thickness of flexible bags including clear, foil (Mylar), mil spec and ESD bags.
