

CEFS Series

Foot Operated Impulse Sealers

- Ideal for high volume sealing
- Plug-in electronic time for variable control
- All metal construction
- Heavy duty
- No warm-up time
- Sits on rectangular base for stability

The CEFS Series of foot-operated impulse sealers are durable and dependable, while consistently providing a uniform seal. They feature a tough metal body that will stand up to continued use for sealing bags and film in industrial settings. These sealers are easy to operate and maintain and require no warm-up time. Just switch on the power and you can begin sealing immediately. Simple to use with no operator training with adjustable Pedal Height and adjustable worktable height. Pedal operation enables both of the operator's hands to be free to position bags and pouches.

Sealers are ideal for high volume poly bag sealing and other thermoplastic sealing. Available in 14", 18", 26" lengths with an 8mm seal widths, the CEFS Series foot sealers are capable of sealing 15-20 bags/minute. Depending on the model of the sealer, materials up to 26" wide and total thickness of 20mil can be sealed. These sealers allow you to keep your hands free for quicker and more accurate sealing. The machines are also equipped with a plug-in timer. Once the timer is set, the sealer provides a consistently flat seal.
