## Portable Induction Sealer

Output	0-50pcs/min
Power Supply	110V/60Hz/500W
Machine Weight	15
Sealing Diameter	Model A: 20-100mm Model B 15-35mm

This series portable induction sealing machine and continuous induction sealing machine utilizes electromagnetic induction principle to produce instant high heat to melt aluminum foil that then adheres to the bunghole, reaching the aim of keeping freshness in and extending preservation time. This type of induction sealer is widely used in industries such as pharmaceuticals, pesticides, pesticides, lubricant, and cosmetics etc. This machine is compact and light weight making easy to operate where ever it is needed. Machine is capable of up to 30 seals per minute.
